

Dear Sir/Madam,

As a full member of the College of Counselling Psychology I join my fellow members' concern with the definition and associated competencies for counselling psychology, appearing in the Psychology Board's consultation paper.

I endorse the attached document developed by the College, in conjunction with counselling psychology program coordinators. I believe the amended definition of counselling psychology and associated competencies, more accurately reflects the teaching and practice of counselling psychology in Australia and is aligned with recognised international standards for counselling psychology.

Sincerely

Sergio
