To the Psychology Board of Australia

As a member of the College of Counselling Psychologists, I am extremely concerned with the definition and associated competencies for counselling psychology, as they have been outlined in the Psychology Board's consultation paper. I am in full support of the attached document that has been developed by the College, in conjunction with counselling psychology program coordinators. I believe the amended definition of counselling psychology and associated competencies more accurately reflects the teaching and practice of counselling psychology in Australia and is aligned with recognised international standards for counselling psychology.

Yours faithfully
