

## Communiqué

23 November 2018

The Psychology Board of Australia (the Board) is established under the Health Practitioner Regulation National Law (National Law), as in force in each state and territory. At each meeting, the Board considers a wide range of issues, many of which are routine and are not included in this communiqué.

This communiqué highlights key issues from the 102nd meeting of the Board on 23 November 2018.

### Renew registration online now- final reminder

The registration renewal date for psychologists with general or non-practising registration is 30 November 2018. The quickest and easiest way to renew registration is [online](#).

Renewal applications received during December will incur a late payment fee.

Under the National Law practitioners who do not renew their registration within one month of their registration expiry date must be removed from the [Register of Psychologists](#). Their registration will lapse and they will not be able to practise psychology in Australia. A fast-track application can be made, only during January. The practitioner cannot practise until the application is processed and the register is updated.

You should read the Board's [registration standards](#) carefully before applying to renew, as information in support of declarations made in an application could be requested.

A [renewal FAQ](#) is available on the Board's website.
